

# Jimmy Skovgard

## US Senate 2026

Your Voice. Your Senator. Our Wyoming. Our Country.

### Jimmy Skovgard for U.S. Senate — Wyoming 2026

A 5th-generation Wyoming resident, Jimmy Skovgard is running for the United States Senate to restore accountability, integrity, and a direct connection between Wyoming and Washington. Raised in Greybull and Basin, Jimmy served in the Wyoming Army National Guard, built a small business from the ground up, and now dedicates his life to community service.

---

#### Term Limits — My Pledge

I have pledged to limit congressional service to 3 two-year terms in the House and 2 six-year terms in the Senate. That's 18 years maximum. Public service is a trust, not a career. Leadership should be refreshed to keep government accountable and introduce new life and ideas.

---

#### Technology as the Bridge

Wyoming's voice deserves to be heard every day, not just during election season. By integrating secure, transparent technology, I will connect constituents directly to the legislative process, giving every Wyoming resident a way to share priorities, track votes, and hold leadership accountable. The best ideas are found among the people.

---

#### The Power of Conversations

Real change starts within the community. I believe in meeting people where they are — in libraries, cafes, town halls, and living rooms — to hear ideas, share perspectives, and build consensus. Every conversation matters because the future belongs to us.

---

#### Election Security: Defending Wyoming's Authority

In August 2025, former President Trump announced he would sign an executive order to **eliminate mail-in ballots and electronic voting machines** before the 2026 elections. This

pledge disregards the fact that Wyoming has successfully managed its own elections for generations, with a system trusted by voters and praised for integrity.

The U.S. Constitution is clear. Article I, Section 4 states:

“The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof...”

That means the power to regulate elections rests with Wyoming’s Legislature and counties, not with the federal executive. Any attempt to dictate how Wyoming votes is not only an attack on local control, it is **federal overreach into a core state power**.

Wyoming’s election security depends on our clerks, our neighbors, and our transparency. I will stand against outside interference and defend the right of Wyoming citizens to vote securely, fairly, and in accordance with the Constitution.

---

### Read More

I’ve written hundreds of short essays on Wyoming, national policy, and the future of our democracy. Many explore healthcare, rural living, and the power of civic engagement.
